Press Release

MecSoft Partners with Novakon Systems LTD. for Affordable and Efficient Cutting Solutions

Irvine, CA, May 13, 2010: [MecSoft Corporation](#), the developer of [VisualMILL™](#) and [RhinoCAM](#) computer aided manufacturing (CAM) software, has partnered with Novakon Systems LTD. of Markham, Canada to provide a complete programming and machining solution for the manufacturing industry.

[VisualMILL](#) bundled with Novakon's milling machines provides an elegant and powerful solution for the prototype manufacturing industry. This powerful, easy to use and affordable combination offers outstanding performance and unbeatable value for industrial design engineers, hobbyists, educators and students.

The VisualMILL CAM product offers strategies for machining solid, surface and STL models. This product packs powerful toolpath generation methods coupled with tools for efficiently controlling the cutting tool for detailed 2, 3, 4 and 5 axis machining capabilities. Novakon's turnkey CNC mills ship with everything a customer needs, including mill, stand, controller (up to 6 axis) and software to start making parts in an affordable yet powerful package.

"MecSoft is committed to providing comprehensive and cost effective machining solutions for the manufacturing industry in general. Our collaboration with, Novakon Systems LTD is yet another demonstration of this commitment in offering an outstanding solution tailored specifically for the prototyping, educational and casual users market needs." says Anita Anand, Vice President of Sales and Operations.

"Novakon is thrilled to offer its customers one of the most advanced CNC milling solutions available within its market segment, at affordable prices. We believe bundling Mecsoft's VisualMill 6.0 CAD/CAM system with our machines is the ideal combination for the home hobbyist, job shop or prototyping facility." says Khai Uong, Director of Sales.

About MecSoft Corporation

[MecSoft Corporation](#) is a leading provider of Windows®-based CAD/CAM software solutions for manufacturing parts in a wide variety of industries including aerospace, automotive, education, general machining, and mold & die. For further information about MecSoft Corporation or any of their products, please call 949-654-8163, visit www.mecsoft.com, or email sales@mecsoft.com.

About Novakon Systems LTD.

[Novakon Systems LTD.](#) is a leading manufacturer of affordable turnkey CNC milling machines. Designed specifically for the educational, hobbyist, prototyping, and manufacturing environments. For further information about Novakon Systems products, please call 905-258-0366 or visit us on the internet at www.novakon.net
